

ROM PADELKAR

AI/ML Engineer | Generative AI | Full-Stack AI Applications
padelkarrom99@gmail.com | +919765357819 | Mumbai, Maharashtra | [linkedin.com](https://www.linkedin.com/in/rom99) | [Github.com](https://github.com/rom99)

PROFESSIONAL SUMMARY

AI/ML-focused Computer Engineering graduate with hands-on experience building Generative AI, automation, and full-stack AI applications using Python, LLMs, Fast API, and Streamlit. Developed production-style AI systems including AI-powered shorts generation, fraud detection, intelligent monitoring, and root cause analysis tools. Passionate about building scalable AI products and automation systems.

PROJECTS

AutoContentAI — AI-Powered Shorts Generator

- Tech Stack:** Whisper AI, Qwen LLM, FFmpeg, FastAPI, Python
- Developed an AI-powered video automation pipeline that transforms long-form content into viral short-form reels using LLM-based clip detection and automated editing workflows.
 - Implemented auto transcription (Whisper AI), AI-based viral clip detection (Qwen LLM), subtitle generation, vertical reel formatting, and hook/title generation.

AI Fraud Detection System

- Tech Stack:** Python, Streamlit, Scikit-learn, Pandas, Plotly
- Deployed an ML-powered fraud detection system analyzing digital banking transactions and predicting fraud probability with high accuracy.
 - Live Demo: `ai-fraud-detection-a66ryc7xizsyjygvbycrv.streamlit.app`

AI Personal Finance Advisor

- Tech Stack:** Python, Streamlit, SQLite, Pandas, Plotly, Google gemini API
- Developed a full-stack AI web app enabling users to track expenses, analyze spending patterns, and receive intelligent financial advice powered by Gemini API.

AI Root Cause Detector

- Tech Stack:** Python, Streamlit, Gemini AI, Pandas
- Built an AI log analysis tool that automatically identifies root causes of system failures from application and server logs.
 - Live Demo: `ai-root-cause-detector-f9npek6cxu7ksau8fcrezc.streamlit.app`

Mini Dynatrace — Full-Stack System Monitoring Tool

- Tech Stack:** Node.js, MongoDB, React.js
- Built a real-time system monitoring dashboard tracking CPU and memory usage, inspired by enterprise DEM platforms like Dynatrace.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript

AI/ML: Generative AI, LLMs, Prompt Engineering, Whisper AI

Frameworks: FastAPI, Streamlit, React.js

Databases: MongoDB, SQLite, Supabase

Tools: FFmpeg, Postman, Vercel, Git

Domains: AI Automation, REST APIs, Analytics

WORK EXPERIENCE

AI Monitoring & Data Analytics Intern Dec 2025 – Mar 2026
QualityKiosk Technologies **navi mumbai**

- Worked within the Digital Experience Monitoring (DEM) team on AI Buddy solutions for intelligent alerting.
- Tested AI-assisted monitoring workflows analyzed system metrics and logs, validated AI-generated insights, and identified false positives.
- Collaborated cross-functional to ensure reliable digital experience monitoring at scale.

Brand Ambassador Apr 2022 – Mar 2023
Viral Fission **India**

Represented and promoted brand campaigns, building communication and stakeholder engagement skills.

EDUCATION

Bachelor of Technology — Computer Engineering
Shah And Anchor Kutchhi Engineering College, Mumbai

GPA: 7.4/10

Hsc
ST. Xavier's College, Mumbai

GRADE: 80%

Ssc
Don Bosco High School, Mumbai

GRADE: 72%

CERTIFICATIONS

- Generative AI Foundation Certificate — upGrad
- Python Programming — Infosys Springboard (Apr 2024)
- Cloud Computing — Infosys Springboard (Apr 2024)
- Cybersecurity — Cisco (Apr 2024)
- PHP & MySQL Training — IIT Bombay
- Power BI Workshop — Bel0x (Jul 2025)

ACHIEVEMENTS & INTERESTS

- International Football Player — Captained college team.
- Represented school and college at State, National & International tournaments.
